우리교회 지원센터

Let your church
We will do the rest

Wori Church Support Center **meets everything your church needs.**From websites to print, apps, sound and camps — all in one place. Submit one request form and **we take it from there.** Open to every church in Korea — no limits on size, region or denomination. Some items, however, cover a set service area.

Visible Church
The first space people see

01 Church Website
The first face a visitor sees. Service times, directions, an introduction to the church and sermon videos. When something needs changing, just tell us.

02 Print & Marketing
Banners, posters and bulletins through to social media. We design what your church needs again and again, and hand over print-ready files and card news together.

Ministering Church
Building the shape of ministry

03 Sound System Setup
A sanctuary where the sermon is heard clearly. We assess the room, choose and install the equipment, and set up the mix for online streaming too.

04 AKC — Arise Korea Camp
A camp that wakes the next generation and young adults of this land. Held over the summer and winter breaks, with churches gathering together — so a church with few young people can still take part.

05 GOBI Camp — Going Vision Camp
A one-day camp where a regional church camp team comes to you. Choose from four tracks — gospel, values, learning and mission — and there is no minimum number. The church provides the space and lunch.

06 Brides Worship — worship ministry
Not a one-off event. They stay until a church's worship can stand on its own — starting a worship gathering together, training worshippers, and handing the work over once people are ready to serve. Serving the Seoul metropolitan area.

Supported Church
From worship materials to admin

07 IntoOffice — e-signature
Stop carrying documents around for a stamp. Send employment contracts, consent forms, expense approvals and facility use permits by phone, see who has signed, and have everything filed automatically.

How churches use IntoOffice

Send and receive documents for signature by phone · See who has signed and who has not · Send reminders · Keep completed documents with their signing history · Filed automatically by type and date · Searchable · Save the forms you use often

How to apply · Boards · Contact — on the back of this sheet

intoedu.github.io/wcsc

Marketing covers design only; printing and delivery are separate. IntoOffice is software your church runs itself — accounting, drafting and filing on your behalf are not included.

HOW A REQUEST MOVES

One request form. The Center takes it from there.

1 Submit the form

Pick the items you need on our website and leave a request. You get a reference number straight away.

2 Call and consultation

We get in touch within 1–2 business days. We can also visit you.

3 Proposal and quote

You receive a proposal with scope, schedule and cost, plus the documents you need for an internal decision.

4 Work and launch

We work to the agreed schedule, check in with you partway, and hand it over for real use.

5 Support afterwards

Fixes, checks and questions are supported through the support period. Add more items any time.

Boards where churches meet each other directly — open to you with no support item requested

Church Property

Churches letting go of a worship space meet churches looking for one. Only posts with verified ownership documents go up, and they stay listed until the deal closes.

Ministry Job Postings

Stipend, housing and working conditions must be stated — the reader has to be able to judge. Once you have filled the post, the church takes it down.

Used Equipment Market

Church equipment and goods change hands. If the buying church wants it, the Center handles removal, transport, installation and sound tuning.

Church Guesthouse

Only rooms offered free of charge and facilities registered as lodging are listed. Guests and churches contact each other directly.

Event Ticketing

Set the time booking opens and it closes automatically when full. Seat selection is optional, and the organiser downloads the list of registrants.

The Center operates the boards only — it does not act as a broker under the Licensed Real Estate Agents Act, and takes no part in negotiating price or terms, or in contracts. For ministry job postings the Center is not the employer; interviews and calling decisions are made by the church and the minister directly. Listings, goods and postings are written by whoever posts them.

WHY WORI CHURCH SUPPORT CENTER

1 We know how churches work

We start out understanding your size, your budget and how decisions get made. You will not have to explain it from scratch every time.

2 A quote first, a contract later

You get an itemised quote before anything is signed, written up so you can take it straight to your board or session.

3 Several needs at once

Website, bulletin and sound are tangled together — no need to find a vendor for each. Request once and the Center schedules them around each other.

4 It does not end at delivery

Building it is not the end. Fixes and faults that come up while you use it go through one set channel, and we state the support period for each item.

Consultation and quotes are free

You pay only once you have agreed to a proposal and work begins. Ask us first — it costs nothing.

How far design goes

Design for banners, posters, invitations and bulletins; two rounds of revision each; print-ready files (size, bleed, colour mode); images for sharing online; and template files your church can edit the wording of.

Can a small church apply?

Yes. The fewer staff you have, the more of this helps. Tell us your attendance and budget range and we will lay out what is possible within it.
