WORI CHURCH SUPPORT CENTER

Everything your church needs, in one place

Websites, print and marketing, sound, camps, apps, paperwork — **all in one place.** We also run boards where churches meet each other directly — no more hunting down a different vendor for every job.

Consultation and quotes are free

You pay only once you have agreed to a proposal and work begins. Ask us first — it costs nothing.

WHY WORI CHURCH SUPPORT CENTER

1. **We know how churches work**
   We start out understanding your size, your budget and how decisions get made. You will not have to explain it from scratch every time.
2. **A quote first, a contract later**
   You get an itemised quote before anything is signed, written up so you can take it straight to your board or session.
3. **Several needs at once**
   Website, bulletin and sound are tangled together. Request once and the Center schedules them around each other.
4. **It does not end at delivery**
   Building it is not the end. Fixes and faults that come up while you use it go through one set channel.

Can a small church apply?

Yes. The fewer staff you have, the more of this helps. Tell us your attendance and budget range and we will lay out what is possible within it.

Open to every church in Korea — no limits on size, region or denomination. Some items, however, cover a set service area. Where a site visit is needed, we give you available dates during the consultation.

우리교회 지원센터

HOW A REQUEST MOVES

1. **Submit the form**
   Pick the items you need on our website and leave a request. You get a reference number straight away.
2. **Call and consultation**
   We get in touch within 1–2 business days. We can also visit you.
3. **Proposal and quote**
   You receive a proposal with scope, schedule and cost, plus the documents you need for an internal decision.
4. **Work and launch**
   We work to the agreed schedule, check in with you partway, and hand it over for real use.
5. **Support afterwards**
   Fixes, checks and questions are supported through the support period. Add more items any time.

우리교회 지원센터

Let your church focus on ministry. We will do the rest.

Everything your church needs, in one place. Support items and open boards, side by side.

What we take on

Visible Church	Website · Print & Marketing
Ministering Church	Sound · AKC Camp · GOBI Camp · Brides Worship
Supported Church	IntoOffice — e-signature

Tell us what you need and we will be in touch

Every church in Korea — no limits on size, region or denomination.

Wori Church Support Center · intoedu.github.io/wcsc

WHAT CHURCHES FACE

Grouped by where churches actually feel the strain

Visible Church

The first space people see

People check your service times on the website and find you from a banner. This is where they meet your church for the first time.

01 Church Website

The first face a visitor sees. Service times, directions, an introduction to the church and sermon videos. When something needs changing, just tell us — nobody at the church has to touch it.

02 Print & Marketing

Banners, posters and bulletins through to social media. We design what your church needs again and again, and hand over print-ready files and card news together.

How far marketing goes

Design for banners, posters, invitations and bulletins
Two rounds of revision per design (more by agreement)
Print-ready files — size, bleed and colour mode
Images for sharing online and social card news
Template files your church can edit the wording of

Marketing covers design only — printing and delivery are separate. You receive the finished files and take them to any printer you like.

Ministering Church

Building the shape of ministry

Worship and camps — preparing the places where people gather.

03 Sound System Setup

A sanctuary where the sermon is heard clearly. We assess the room, choose and install the equipment, and set up the mix for online streaming too.

04 AKC — Arise Korea Camp

A camp that wakes the next generation and young adults of this land. Held over the summer and winter breaks, with churches gathering together — so even a church with few young people can join simply by registering.

05 GOBI Camp — Going Vision Camp

A one-day camp where a regional church camp team comes to you. Choose from four tracks — gospel, values, learning and mission — and there is no minimum number. The church provides the space and lunch.

06 Brides Worship — worship ministry

Not a one-off event. They stay until a church's worship can stand on its own — starting a worship gathering together, training worshippers, and handing the work over once people inside the church are ready to serve. Serving the Seoul metropolitan area.

Supported Church

From worship materials to admin

Rarely noticed, but they make ministry far easier when they are there.

07 IntoOffice — e-signature

Stop carrying documents around for a stamp. Send employment contracts, consent forms, expense approvals and facility use permits by phone, see who has signed, and have everything filed automatically.

IntoOffice is software your church runs itself — accounting, drafting documents and filing on your behalf are not included.

NO SUPPORT ITEM REQUIRED

Boards where churches meet each other directly

The Center opens the boards and checks what goes up. Posting and browsing is done by the churches themselves.

Church Property

Churches letting go of a worship space meet churches looking for one. Only posts with verified ownership documents go up, and they stay listed until the deal closes.

Ministry Job Postings

Stipend, housing and working conditions must be stated — the reader has to be able to judge. Once you have filled the post, the church takes it down.

Used Equipment Market

Church equipment and goods change hands. If the buying church wants it, the Center handles removal, transport, installation and sound tuning.

Church Guesthouse

Only rooms offered free of charge and facilities registered as lodging are listed. Guests and churches contact each other directly.

Event Ticketing

Set the time booking opens and it closes automatically when full. Seat selection is optional, and the organiser downloads the list of registrants.

The Center operates the boards only — it does not act as a broker under the Licensed Real Estate Agents Act, and takes no part in negotiating price or terms, or in contracts. For ministry job postings the Center is not the employer; interviews and calling decisions are made by the church and the minister directly. Listings, goods and postings are written by whoever posts them.
